Advanced Health & Wellness Features

Body Composition¹
Offers key measurements like skeletal muscle, basal metabolic rate and body fat percentage.

Sleep²
Get a more complete picture of your sleep patterns with new snoring detection and blood oxygen³ level tracking while you sleep.

Blood Pressure⁴
Measures and records blood pressure⁴ no need for bulky equipment.

Electrocardiogram (ECG)⁵
Monitors and analyzes heart rhythm for irregularities including atrial fibrillation⁶.

Daily Activity⁷
Track your daily wellness and stay motivated to live your best.

Group Challenge⁸
Push yourself to go further by entering group challenges with your friends and family.
