

# DENON DHT-S517

## Sound bar system with wireless subwoofer, Dolby Atmos, eARC, and Bluetooth

Built by the market leader in AV receivers, the Denon DHT-S517 transforms any TV into a home entertainment centre. The sleek sound bar with integrated up-firing speakers and the powerful subwoofer offer thrilling 3D audio with Dolby Atmos overhead effects. Quickly connect your TV, Blu-ray, or other devices through the HDMI (w Enhanced Audio Return Channel) and optical inputs and easily stream your favourite music via Bluetooth.

### HIGHLIGHTS

### YOUR BENEFITS

Upgrade to 3D Sound

Boost your home theatre experience for TV, movies, and music with premium-quality Denon sound and Dolby Atmos

Your TV never sounded better

A rich driver array and a powerful subwoofer give you the superior sound quality you've always been looking for

Works with every TV

Experience exceptional sound clarity from your TV through the HDMI connection or the digital optical output

Easy setup and use

With all cables in the box, a Quick Start Guide, and a straightforward user concept, the DHT-S517 is easy to install and use

Wireless music streaming via Bluetooth

Quickly and easily enjoy your favourite music from your Bluetooth-enabled smart device

Denon Dialogue Enhancer

Enjoy crystal clear movie and TV dialogue, even during loud scenes or complex soundtracks

Pure Mode

Eliminates surround sound processing and other adjusted characteristics for pure music listening

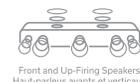

Optical digital audio and HDMI 4K UHD inputs

Effortlessly connect your Blu-ray, gaming console, or other devices

Engineered with a more than 110-year Denon legacy in audio excellence

Trust in a high-quality, durable system to deliver the ultimate audio experience

SINCE 1910 | DEFINING AUDIO EXCELLENCE

### 3D Sound with Dolby Atmos

Spectacular, immersive surround sound experience tuned by the Denon Sound Masters for the perfect home theatre. Enjoy enhanced bass, crystal clear dialogue, and enveloping sound from this 3.1.2 sound bar configuration.

### Universal compatibility with eARC

The DHT-S517 works with all TVs. Use the included HDMI cable to send audio from your smart TV and other connected sources to the sound bar via the HDMI Enhanced Audio Return Channel (eARC). Once connected via the HDMI eARC or ARC connection, you can seamlessly control the sound bar volume with your TV remote. Non-HDMI ARC TVs can connect via the digital optical input.

### Wireless music streaming

Your favorite tracks are at your fingertips. Easily stream your favourite music directly from your smart device to your sound bar via Bluetooth.

### Easy setup and use

With all cables in the box, a Quick Start Guide, and a straightforward user concept, the DHT-S517 is easy to install and use. The sound bar can be either controlled by the supplied remote or works automatically with most TV remotes directly or via HDMI control.

### Dialogue Enhancer

Denon Dialogue Enhancer improves dialogue intelligibility with three different modes—ideal for movies and TV shows. You can even turn up the dialogue without having to adjust overall volume.

### High-performance build quality

The DHT-S517 is equipped with a left and right midrange and tweeter, a dedicated centre channel, plus two up-firing speakers. Together with the wireless subwoofer, this adds up to a powerful 3.1.2 speaker configuration.

### Sound modes for any occasion

With three different sound modes — Movie, Music, and Night — you can choose the perfect mode for any occasion.

### Denon Pure mode

Eliminates surround processing and removes any adjusted characteristics associated with Movie, Music, or Night modes for a pure music listening experience.

### Amazing sound built on over 110 years of audio innovation

As Japan's first audio electronics manufacturer with a deep legacy of firsts, Denon is the defining audio company of Japan. Found in 1910, we enable the moments that matter through the relentless pursuit of quality, innovation, and audio performance. We innovate for a better experience.
