DELIVERING EVERY LISTENING MOMENT

The complete joy of total music—in your everyday living space. Dynamic, heart-stirring sound, with comprehensive multi-function operation that foreshadows next-generation audio. All in one.

TRUE SOUND

EXPERIENCING SOUNDS YOU'VE NEVER HEARD BEFORE

True Sound is created by Yamaha drawing on its unique know-how as a musical instrument manufacturer, and combining it with full focus on tonal balance, dynamics, and sound image. Our unique acoustic and electronics technology, including the adoption of newly developed speakers, delivers a profound musical experience that stirs your heart and your emotions—going beyond mere audio and making you feel as though you're right there in the presence of the artist.

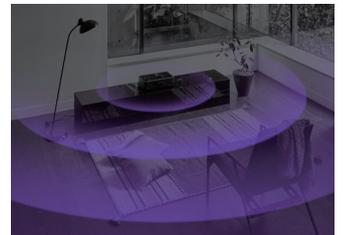

NOTHING TO LOSE, EXPRESS IT ALL

We strove without compromise to reproduce the music perfectly—with no loss, and all expressive nuances preserved—for true instrument tones and gorgeous vocals. The built-in two-way coaxial speakers and expert audio tuning deliver exceptionally authentic, rich sound.

AS THE ARTIST IS IN YOUR ROOM

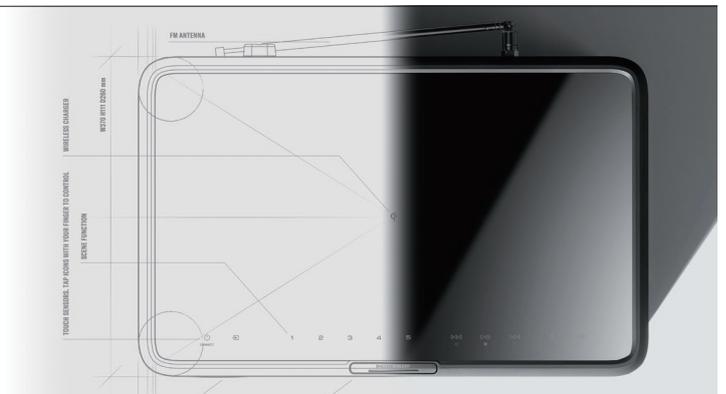

In addition to its advanced Sound processing technology, the MusicCast 200 features a Sound Mode boost switch that 'fattens' the low end, and an equaliser for fine sonic control over the bass, midrange, and treble frequencies.

CLEAN AND CONTEMPORARY DESIGN

YOUR OWN PERSONAL TABLETOP

The clean and contemporary design responds to your own personal tastes, creating a stylish living space. The simple tabletop not only features flat touch sensor controls with space for your favourite accessories and other items, but also lets you wirelessly charge your smartphone—using the Qi charging standard.

MULTIPLE SOURCES

ENJOY ALL YOUR MUSIC

With just one device, enjoy conventional playback of a wide range of sound sources such as CDs, DAB+ radio, smartphones and USB, plus various new network features—including Yamaha's original MusicCast audio control system, and compatibility with a wide variety of music streaming services. Moreover, you can use the MusicCast Controller app for all basic operations and music selection, as well as linking your audio playback from the TSX-N237D to any other MusicCast compatible device on your home network.

*Music streaming service availability varies by region.
