Wall charger 100W with USB-C to USB-C 5A cable

Technical features:

- Total Output: 100W
- 1xUSB 30W QC
- 2xUSB-C 100W Power Delivery
- 100cm USB-C to USB-C 5A cable included
- Charging optimization for battery preservation
- Overload and short circuit protection circuit

Compatibility:

All Smartphone, tablet and MacBook

DESCRIPTION

KIT MULTIPOWER 100W is the “ultra compact” charger, ideal for charging all devices compatible with 100W charge and below. The USB-C ports, equipped with 100W charging, enables the Super Fast Charging 2.0 for the compatible Samsung devices; the USB-A port provides additional possibilities for simultaneous charging.

The 100cm USB-C to USB-C 5A cable is included and allows the distribution of 5A of current and is ideal for 100W chargers. The braided material makes it more durable and comfortable to use.

This charger is equipped with **GaN technology**: this technology is based on gallium nitride, a material recently used in semiconductors inside battery chargers. The main advantage of gallium nitride in relation to battery chargers is that it produces less heat. The lower heat generation allows the components to be closer together and, consequently, reduces the size of the chargers.
